

Experiences At The Final Frontier

OVERVIEW

Danger, Danger... You have just crash landed on the planet Schnarg. Your team must pull all their skills together to survive and make their way back to the mother ship. Time is of the essence: all resources are diminishing and the Schnarglings do not take kindly to invaders!

OBJECTIVE

Your team must complete a number of missions in order to fund the creation of your teleporting machine, which your team will need to survive and transport them back to the mother ship. The race for space and survival is on, but which team will win and is there a twist in the tail?

BENEFITS FOR YOUR TEAM

This morale-boosting, fun experience will stimulate your team's creativity and communication, whilst testing their effectiveness and ability to work together. The end result is the realisation that to achieve the common goal it is vital to maintain and build relationships.

“BlueSky Experiences provide excellent team building events. The challenges within the events are great fun, but also provide some important business benefits.”

Norwich Union
